### **COBALT CONVEYORS AND COBALT PROJECTS RELOCATE DUE TO EXPANSION**

Managers at the leading conveyor systems integrator, Cobalt Conveyors and its sister company Cobalt Projects are celebrating a much needed move to spacious new premises in Lancashire in order to keep pace with the success of their growing business.

The move was precipitated by the increase in sales volume following new, exclusive sales agreements with two leading global conveyor manufacturers. Together with the forthcoming launch of a brand new Cobalt website next month, the company is gearing up for a very busy summer indeed!

Simon Turner, Managing Director is delighted with the recent move:

***“Our fantastic new location allows us to deliver an even better standard of service to our customers and hopefully will attract new business as well. In the very near future we will also be launching a new website which means that our customers can source their requirements at the touch of a button. The success of Cobalt has truly been remarkable and we are always looking to the future to see how we can improve.”***

The new premises in Mawdesley have afforded the company an extra 500sq. ft of high level space, which has helped Cobalt deliver a new accounts, sales & marketing operation and conference facility.

For more information about Cobalt Conveyors or Cobalt Projects, log onto [www.cobaltconveyors.co.uk](http://www.cobaltconveyors.co.uk) or call Simon Turner on 07515497168.
